  6. Do not operate the luminaire fitting with a missing or damaged shield.

SAVE THESE INSTRUCTIONS

### Package Contents

A. (1) Fixture

### Product Dimensions

### 1 Remove Faceplate

### 2 Install Lamp

Insert the lamp with the correct wattage and type marked on the fixture label.

**CAUTION:** Do not exceed maximum wattage marked on luminaire label.

**NOTE:** DO NOT touch lamp with bare hands. Use soft cloth to handle lamp.

## 3 Install Faceplate

Place the glass, gasket, and faceplate back onto the housing. Secure them with the screws previously removed. Hand tighten until snug, then use a screwdriver to secure the screws using a pattern.

## 4 Dig Hole

Dig a hole in the ground making sure there is approximately 3 inches of room on all sides surrounding for pea gravel or sand.

## 5 Wire Connection

Strip both leads from the luminaire pigtail. Using two wire connectors (sold separately), connect the leads from the luminaire to main supply cable leads.

## 6 Adjust Luminaire Direction

Install the fixture in the hole and fill the extra space with pea gravel or sand for proper water drainage.

## Install/Replace Bulb

Loosen the lock screw to remove the glare guard. Then remove the inner shield to expose the bulb. Replace it with the correct wattage and type marked on the fixture label. Then reinstall the inner shield and glare guard.

**IMPORTANT:** Halogen bulbs must be protected from moisture and dust at all times. Always reinstall shield when removed.
